Our one-day shark adventures depart from Pier 40 next to AT&T Park in San Francisco. We typically depart for the Farallones before sunrise so we can be on location and have our shark cage in the water during peak sighting times.

Getting to and from the Farallones is half the fun. You'll travel to the Farallones aboard the Derek M Baylis, a specially-designed 65 ft sailing research vessel. If we're blessed with wind, we'll sail. If not, we'll motor. The Baylis provides a safe, comfortable and environmentally-friendly platform for research and education. She's the same vessel utilized by the Sanctuary's long-time white shark researchers.

Typical travel time to the islands is about three hours. During the trip offshore, we'll serve breakfast and our certified naturalist will fill your brain with shark facts and Sanctuary trivia. We may even show some shark videos!

Seasickness Happens
There is a good chance you'll experience a bit of seasickness on our shark adventures. Seas can be rough. Even our experienced shark dive crew still gets seasick from time to time. You can help minimize your chances by taking a seasickness remedy both the night before your great white shark trip and the morning of your trip. If you do start to feel poorly on the ride out to the Farallons, our staff is there to help you. Often a little time on the deck in the fresh air is all it takes to make you feel better.

Cage Diver - $825
No dive experience is necessary. A certified dive instructor will teach you everything you need to know. Our shark cage floats so your head will be just below the surface and you’ll be able to breathe from an air hose while you move about the cage, taking photos and having fun. All you need to bring is a mask and warm clothes for before and after your dive. We'll provide a wet suit for you to wear during your dives, meals and refreshments onboard the Baylis. Price does not include mandatory trip insurance.

Topside Observer - $475
Help scan the horizon for fins and watch for breaching sharks attacking their prey. Be sure to dress warm and in lots of layers. This option is perfect for those who want to see sharks but prefer to stay dry. We'll provide meals and refreshments onboard the Baylis. Price does not include mandatory trip insurance.

There's No Shark Guarantee
We go to the best places at the best time of year with the best shark crew, but we cannot guarantee you'll see sharks. Our shark diving expeditions take place within a protected marine sanctuary. We are permitted to use a seal-shaped decoy to increase sightings, but we are not allowed to bait. We go to observe white sharks feeding on the local seal population. If we see no sharks, THERE IS NO REFUND. If we are unable to deliver your adventure due to weather or unforeseen mechanical problems, THERE IS NO REFUND. If we are forced to cancel your scheduled trip, we will work with you to reschedule your cage dive or top-side experience for a future date during the same calendar year, or will provide you with the information necessary for submitting a trip insurance claim. THE PURCHASE OF TRIP INSURANCE IS MANDATORY.
